Profesores de la red pública y expertos defienden los avances en el nivel de inglés de las nuevas generaciones y señalan que el objetivo es que se defiendan en esa lengua en el ámbito laboral, no que la dominen a la perfección

- SES is an aggregate of indicators relating to material possessions, income, occupation, neighbourhood character, spatial relations, cultural capital, and family reproduction modes (Loos, 2000).
- In the research context (Spanish Ministry of Education, Culture and Sport, 2017), it is computed by means of the:
  - number of household members;
  - number of information and communication technology (ICT) devices (computers, tablets, smartphones, smart televisions, e-readers, etc.) at home, and use;
  - number of books at home, and use;
  - parents' highest qualification and occupation.

## Bilingual egalitarianism

- The **staircase pattern** disappears in CLIL
- **Causality** is not addressed. Plausible explanations: participants' attitudes, curriculum organization, teaching coordination and methodology
- **Admission** bias should be eliminated everywhere

## Matthew effect

- Language structures mirror social structures
- Means of production determine the distribution of language structures across social layers
- Language capital – cultural capital – social capital

What happened in the world (*mythos*) and the narrative of what happened in the world (*logos*).

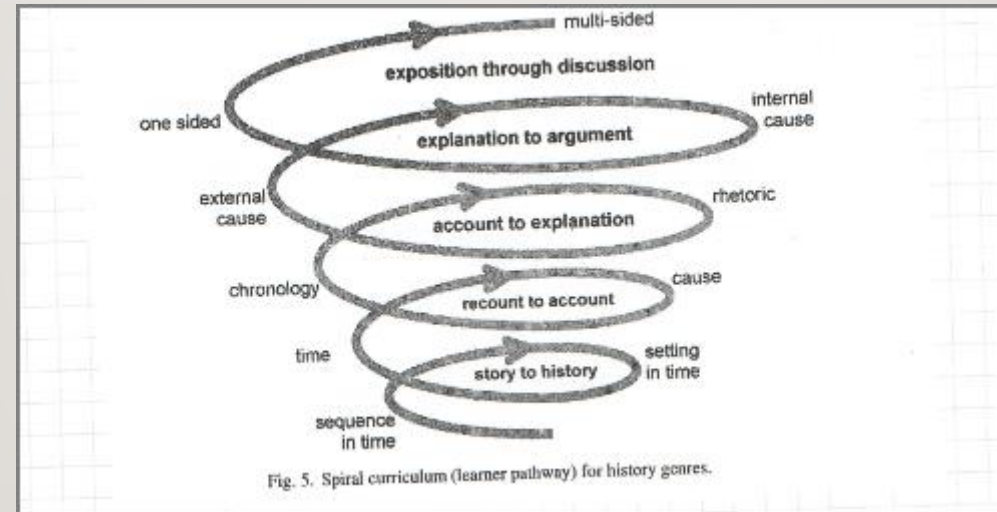

- mainly concerned with *change and causality*
  - *change*: external analysis / prolypsis : what happened before, after and at the same time as the events recounted.
  - *causality*: multiple causation

# ACADEMIC FORM /FUNCTION MAPPINGS AND COMPLEX SYNTAX IN CLIL

- **Impersonal sentences for definitions:**
  - \*Is the accumulation of CO2 that the cars produce.*
- **Existential structures for descriptions and predictions:**
  - there won't be any glaciers and the water level will rise*
  - there a bit of vapour*
- **Passives for descriptions of scientific processes:**
  - Its made when the rain is finished.*
- **Complement clauses as hedges to mark stance:**
  - I think that they can live less than...*

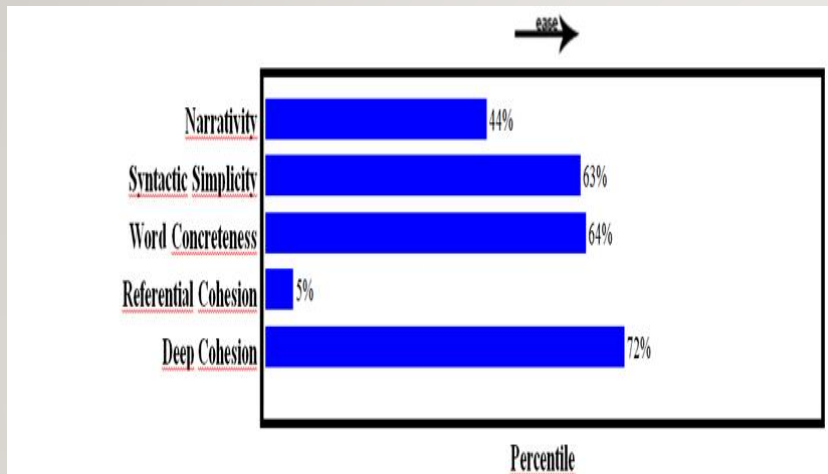

- (12th GRADE) Right after the death of Franco (**topicalization**), a process to launch a new political system started to take place in Spain directly (**adverbial modification**) helped by the nowadays Spanish king, Juan Carlos I. He had an important role when stopping all opposition to democracy, specially in the “coup d'état” by Tejero. This is probably (**hedging**) the reason why monarchy was widely accepted by the Spanish population at that time. Thanks to (**causality by means of lexical items**) his actions 36 years ago, we can now enjoy a democracy and everything it brings with it (equality, rights to respect and above all, freedom) (**abstract nouns, enumerations**). The problem now is that after this transition-to-democracy process, the monarchical system has become too old-fashioned to stay the same. The recent protests are just one more proof that monarchy is coming to an end. Besides the general discontent of the population due to the high unemployment rates and the low income an average family gets, the royal family is destroying his image with corrupt new members, private schools for their children and summer holidays in expensive places (**extreme embeddedness**).

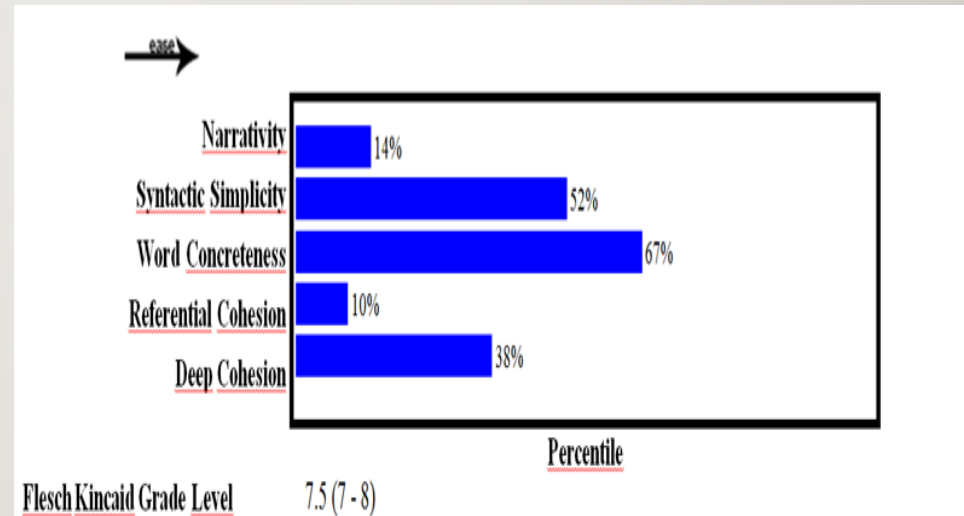

# SUBJECT 1 (12) SUBJECT 2 (16)

Flesch Kincaid Grade Level 6.6 (6 - 7)

This text has low referential cohesion, indicating little overlap in words and ideas between sentences. Cohesion gaps require the reader to make inferences, which can be challenging and even unsuccessful without sufficient prior knowledge. It is high in deep cohesion. There are relatively more connecting words to help clarify the relationships between events, ideas, and information. Because of this added support, comprehension may be facilitated, especially when the topic is unfamiliar.

Flesch Kincaid Grade Level 7.5 (7 - 8)

This text is low in narrativity which indicates that it is less story-like and may have less familiar words. Less story-like texts are usually harder to comprehend. It is low in both referential and deep cohesion, suggesting that the reader may have to infer the relationships between sentences and ideas. If the reader has insufficient prior knowledge, these gaps can be challenging.

## 5. Comparison of the uses of the simple present and present continuous

As pointed out in Chapter 1, the Simple Present tense may be used for stating general truths, and for referring to actions which occur at regular intervals. In the following examples, the verbs in the Simple Present tense are underlined.

e.g. Nova Scotia is a Canadian province. Geese fly south every winter.

In contrast, the Present Continuous tense is usually used to refer to ongoing actions happening at the time of speaking or writing. In the following examples, the verbs in the Present Continuous tense are underlined.

e.g. Right now, I am visiting the province of Nova Scotia. At the moment, a flock of geese is flying overhead.

I came home one night. Fell flat on the doormat, 'cause I was drunk. And, well ... there's this bloke ... he shouts from a window: "I'm coming down to give you what for." So ... well, ... I says: "Come on then, come on down." And down he comes. Well, I just kicked him up the backside. Then the rezers turned up and I fought back. Next day I didn't remember nothing. You know ... it's like this ... when I'm sober I'm o.k. But when I'm drunk I can't control myself. I think ... I think ... I go looking for trouble and fights.

### 3. Building a cold war timeline.

Class remains divided into groups of five. Using the information of the jigsaw reading, make a timeline including periods and facts, a short explanation and dates or years. Use the timeline worksheet for this purpose. 

4. Writing. Look at this photo. Write a short text about it. Answer the following questions in the text: When was this photo taken? Why? What did the protestors want? What were they afraid of? Why? What solution did they think was the best?

- 3º. Una **CRÓNICA** es una obra que narra hechos históricos (de un país o zona, de una época o de una persona, o de un acontecimiento en general) en orden cronológico, esto es, según el orden temporal en que ocurrieron; ya sea en primera persona (si el cronista es testigo contemporáneo de lo sucedido) o en tercera. Selecciona un bloque temático del periodo que has trabajado y elabora una crónica histórica siguiendo estas indicaciones:

- Redacta el texto de la manera más objetiva posible, sin incluir críticas ni opiniones personales sobre los hechos que se relatan.
- Procura incluir detalles y pormenores ordenados cronológicamente.
- Estructura: introducción (expón brevemente el objetivo de tu crónica), desarrollo (cuerpo de la narración) y conclusión (recapitulación final).
- Acompaña el texto de imágenes, gráficos u otra información auxiliar que ilustre el texto.
- Al emplear el orden temporal, tu exposición debe emplear conectores que indiquen orden o secuencia como los siguientes:
  - ✓ **Comienzo de discurso:** ante todo, para comenzar, primeramente, al principio, en primer lugar, en el comienzo ...
  - ✓ **De recapitulación:** en resumen, en fin, total, pues bien, bien, en definitiva, en suma, a fin de cuentas, definitivamente, en definitiva, al fin y al cabo...
  - ✓ **Cierre de discurso:** en fin, por último, en suma, finalmente, por último, terminando, para resumir...
  - ✓ **Desarrollo / Digresión:** por cierto, a propósito, a todo esto, después (de / que), luego, desde (que), desde (entonces), a partir de, antes (de / que) , hasta que, en cuanto, a continuación, inmediatamente, temporalmente, actualmente, inmediatamente, al instante, acto seguido, más tarde, en otra ocasión, al cabo de, mientras, entretanto, al mismo tiempo, mientras tanto, paralelamente, simultáneamente, a la vez...
  - ✓ **Ejemplificadores:** así, por ejemplo, a saber, pongo (pongamos) por caso, valga como ejemplo, concretamente, sin ir más lejos, más concretamente, verbigracia, o sea, es decir, bueno...
